Hello,

Welcome to our 51st annual production sale. We have changed it up a bit this year so we are not so reliant on good weather and roads to have a successful event. The bulls are being fed here at the Deer Lodge farm and are available for viewing anytime up to March 8th. We will have an open house type viewing on March 1 and 2 with refreshments if you'd like to come take a look on those days. The sale will then be held March 8th at 1 PM MST online and on TV right from Superior Live-stocks studio in Texas. Feel free to call me if you have any questions.

The Bulls are still being fed a very high roughage diet with minimal starch consisting of some cracked corn and potatoes. It sure has made our bulls have extremely solid feet in the past and we don't want to mess with that. Our bulls are sold and delivered in their working clothes ready to go to work. You will notice our bull numbers are lower than normal this year and they will be for a couple years as we work through some tough years at our old Ashland ranch from drought, fire, hoppers and tight feed stocks. We now have basically a drought proof operation now to withstand it way better.

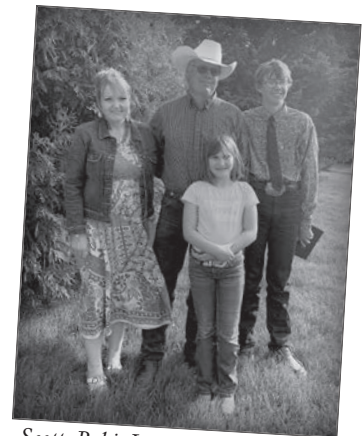

We will have quite a bit of new blood this year as well as some old school classics. We have been very critical about keeping a lot of length and grow in our cattle and it's getting to be a tough chore finding new herd sires that have that length we desire. I don't understand why you'd breed the length and performance out of cattle but it appears to be happening. There is a reason the feedlots love FAR sired feeding cattle. They perform and can pack on the red meat without turning into YG 5s. So if your looking for some Angus bulls with oodles of length that hold up and cover the country give us a call.

Thank you

Jim

CattlActive The health of your cattle all starts in the rumen.

Did you know that 80% of a cow's immune system lies in and around the rumen? The ravages of acidosis, poor nutrient absorption and consequent illness can damage not only your cattle but your bottom line.

CattlActive® is 100% natural. It works to neutralize acid, encourage feed and water consumption, support beneficial gut flora and increase nutrient absorption for healthier, stronger, heavier cattle come sale time.
